PROJECTS

Market Zen - AI-Powered Skincare E-Commerce Platform | GitHub | Live

Dec 2025 - Mar 2026

- Built a full-stack, AI-driven skincare e-commerce platform with 10+ core features including product catalog, cart, order management, and checkout using the MERN stack.
- Integrated Google Gemini AI for skin image analysis, smart product search, and personalized skincare routine recommendations, improving product discovery efficiency by 40%.
- Implemented secure authentication and access control using JWT, Google OAuth 2.0, and OTP-based email verification via Resend API.
- Incorporated Razorpay payment processing and deployed with Vercel, Render, Git-based version control, and CI deployment workflow.

Tech: JavaScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Google Gemini API, JWT, Google OAuth, Razorpay

AI Resume Copilot - AI-Powered Resume Intelligence Platform | GitHub

Jan 2026 - Mar 2026

- Architected a production-ready AI-powered resume intelligence platform enabling ATS match scoring, semantic skill gap analysis, and automated resume optimization.
- Engineered semantic matching with PostgreSQL pgvector and spaCy NLP to extract, analyze, and compare resume skills against complex job descriptions.
- Integrated OpenAI GPT-4o to generate personalized learning roadmaps, optimize resume bullet points, and create role-specific interview questions.
- Containerized backend services with Docker and implemented automated cloud deployment using Render Blueprints with frontend hosting on Vercel.

Tech: React.js, Vite, FastAPI, PostgreSQL (pgvector), Redis, OpenAI API, spaCy NLP, Docker, Render, Vercel

TRAINING

Game Design Using Unity 3D | APSSDC & Madanapalle Institute of Technology & Science

Aug 2024 - Sep 2024

- Learned game development fundamentals using the Unity 3D engine and C# scripting.
- Designed and developed basic 2D/3D game environments, including character movement, object interactions, and game mechanics.
- Implemented game assets, animations, physics components, and user interface elements to create interactive gameplay experiences.
- Gained hands-on experience in scene management, debugging, and testing game applications within Unity.

Tech: Unity 3D, C#, Game Design Principles, Animation, Physics Engine, UI Design

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** | Oracle | Oct 2025
- **AWS Cloud Practitioner Essentials** | AWS Training & Certification | Jun 2026
- **Claude 101** | Anthropic | Recent
- **Advanced Data Structures using Java** | Department of Computer Science & Engineering, MITS | Jan 2026
- **MERN Stack Development** | Department of Computer Science & Engineering, MITS | Feb 2026
- **Quantum Fundamentals** | Amaravati Quantum Valley, Qubitech & WISER | 2025 - 2026

TECHNICAL SKILLS

Web Development: Responsive Design, CRUD Operations, REST APIs, DOM Manipulation, Front-End Development, Basic Authentication Concepts

Languages: Java (OOP), Python, C, JavaScript, HTML5, CSS3

Frameworks/Libraries: React.js, Node.js, Express.js, Bootstrap

Database: MySQL, MongoDB

Tools/Platforms: Git, GitHub, Vercel, Render, Razorpay, VS Code

Soft Skills: Problem-Solving, Analytical Thinking, Team Collaboration, Management & Coordination, Decision Making, Continuous Learning

EDUCATION

Madanapalle Institute of Technology & Science | 2023 - 2027

BTech in Computer Science and Engineering | Madanapalle, Angallu

Sri Siddhartha Junior College | 2021 - 2022

Intermediate (PCM) - Percentage: 85.3% | Madanapalli, Andhra Pradesh

Govt Boys High School | 2020 - 2021

Matriculation - Percentage: 97% | Kadiri, Andhra Pradesh
